National Coin Week  
American Numismatic Association  
P. O. Box 2366  
Colorado Springs, Co 80901

Dear Sirs:

As chairman for "National Coin Week" in San Angelo, Texas I am making a report.

We are a town of about 70,000 people and have a very active coin club which was organized in 1960. We usually have a membership of about 70 and have an average attendance of 40 to 50. We always have guests and a good many junior members who attend. We have had two presidents from San Angelo of the Texas Numismatic Association and numerous district governors. At present we have Fred Clark as vice-president of TNA.

The job of Chairman of coin week was given to me late in the day for getting things done like I would have liked to have done. We did however get good publicity thru the newspapers, radio stations and TV station. I enclosed three clippings from the Standard Times which has a morning and evening paper each day. The clipping from the Monday Evening paper list where we exhibited and who showed their coins. The picture appeared on the Wednesday evening paper on the front page. The broadcasting stations each announced our exhibits on their program of events of the week.

The response was real good to all the exhibits. Without an exception every financial institution was real glad to get the exhibit and asked us to place others during the year. Last night at coin meeting we all agreed to place exhibits during the first week of September just before our coin show. Two of the banks and I am sure the others will give us publicity on the show and exhibit in their ads in the paper. Many people came back more than one time to see our exhibit and went from place to place to see the others we had. The banks said it was real good to have our exhibits in their waiting rooms or near it for people to see while they were waiting to see an officer of the bank.

I sent in for additional posters and we had them on all exhibits. We had 5 visitors last night and most of them were those who saw the exhibits. We had one new member of these 5 and I am sure more will join. We had the slide set on Confederate Currency from ANA and everyone enjoyed it very much. We usually have talks by local members on their pet collection of numismatics.

We are looking forward to next year coin week and our own coin show this fall.

Sincerely,

  
J. G. Pfluger
